Dino Game is an endless runner game originally built into Google Chrome. The game was added as&#128180; an easter egg to Google Chrome in 2014 to entertain users when there is no internet available. The game -&#128180; nicknamed Chrome Dino - featuring a t-rex is played by over 270 million players every month.&#128180;

Once you reach that score,&#128180; the game essentially becomes an endless runner, with no further changes in gameplay. After 99999 score, &#128180; the dino game resets&#128180; your score back to 0 but the speed is set to 6000&#128180;. And, this happens every time you reach 99999&#128180; score.&#128180;
