I have both (WAW on disc and Black Ops 1 on Steam) and they run well on Win10 and 7 too. Guess I should have said... even runs well on Win11.

Was this reply helpful?

To play COD: Warzone with high-resolution textures and smooth gameplay, you will need a higher end gaming PC. Here are the competitive specs to run at a high FPS for use with a high refresh monitor: CPU: Intel i7 or AMD Ryzen 7. RAM: 16GB

About Shooting Games

Shooting is a very interesting category of games. Not only boys like to play such games, girls do too, because they come in different interpretations. And not necessarily shootings are about murder and violence. When you hold a weapon in your hands, you are overwhelmed with amazing feelings. You denounce strength, security, and power, but at the same time a large amount of responsibility. We need to know weapons are not just an instrument of war. First, it is a tool that helps to achieve a specific goal.
