<p>Windows 2.0 was released in December 1987, and was more popular than it
s predecessor. It features several improvements to the user interface and memory
management.[19] Windows 2.03 changed the OS from tiled windows to overlapping w
indows. The result of this change led to Apple Computer filing a suit against Mi

<p>Windows 8 and Windows Server 2012 introduce a new Language Control Pane
l where both the interface and input languages can be simultaneously changed, an
d language packs, regardless of type, can be downloaded from a central location.
The PC Settings app in Windows 8.1 and Windows Server 2012 R2 also includes a c
ounterpart settings page for this. Changing the interface language also changes
the language of preinstalled Windows Store apps (such as Mail, Maps and News) an
d certain other Microsoft-developed apps (such as Remote Desktop). The above lim
itations for language packs are however still in effect, except that full langua
ge packs can be installed for any edition except Single Language, which caters t
o emerging markets.</p>
