If you want to download an APK file from the Play Store for a specific device, architecture, or Android version, you can choose your preferred options from the menus before downloading. This locates the app you want to download and generates a link for saving the APK file.

Click the download icon next to the APK file. How to Download an APK File from the Google Play Store - wikiHow : Download -an-APK-File-from-the-Google-Play-Store

In order to install apk file to the Android device, basically we need to do the following. 1. On Android device, navigate to **Apps** & **Settings** > **Security**, enable **Unknown Sources**, then tap **OK** to agree to enable this setting. This will allow the installation of third party apps and standalone APKs.
