Football corners predictions is one of the fairly ne
w tips offered by tipsters and by us. Some say it's luck

predicti
ng corners in a football game, but we at AFootballReport find in corners very pr
ofitable markets especially in live events

when odds go very high as
the game evolves. So how do we predict corners? Of course as any other football
prediction and corners are related to a number of pre-match and team f
actors. First of all we should see the type of game we're looking
for or the type of game we want to predict. Is it a game with a stro
ng favorite or just two equally strengthen teams that play. If it's a game w
ith a strong favorite probably we should pay attention to the corners
race predictions as strong favorites always keep the ball in possession more th
an the other teams and create more chances as they push forward almos
t during the whole game. Keep in mind in live events that if the scor
e is in favor of the favorite team then this team would not be so mot
ivated to create chances and would probably win less corners than in a draw even
t or from behind.

Second thing we should use when making our corners tips is t
o see the teams lineups and tactic for the upcoming game. Target tea
ms with more offensive tactics and teams that use wingers heavily in their attac
ks. For example, some good wingers for the home team could easily pro
duce more than 10-20 crosses in the penalty area which very often defenders clea
r in corners.

Corners in the late stage of the game are more likely to happen than in
the early minutes. Usually teams are very careful in the opening min
utes of a football game and they try to enter the game more passively
than aggressively. As the game continues depending on whether a team is losing
or winning the game is leading to pushing forward and sending more pl
ayers to attack or defend. This leads to significantly increasing the number of
corners in the last minutes and that is what we want when predicting
corners.

Spot derby games. Derby games are always poor in goals, but
very rich in corners and bookings and cards especially. No one wants to lose a d
erby, so teams losing it push very hard to regain advantage, which al
