Surfactants, cleansing agents, emulsifiers, skin conditioners and humectants.

Adding to their use in

cosmetics, many PEG compounds also have other applications.

Safety Evaluation of Polyethylene Glycol

and its Use in Cosmetic Products

utilized in cosmetic products as surfactants, emulsifiers, cleansing

agents,

humectants, and skin conditioners. [1] As a medication, PEG

is a part of the

polyethylene glycol family.

PEG is used in a wide variety of applications.

Solar flares, on the other hand, directly affect the

ionosphere and radio communications at the Earth, and also release energetic

particles into space. Therefore, to understand and predict space weather

and the effect of solar activity on the Earth, an understanding of both CMEs

and flares is required.
