The Xbox Series S is capable of running Call of Duty: Black Ops Cold War at 60 frames per second (FPS) in its performance mode. All consoles that CoD Cold War supports run the game at at least 60FPS, or at least make an attempt (cough Xbox One cough).

Does the Xbox Series S run COD Cold War at 30FPS or 60FPS? - Quora : ...

Across the current Generation consoles, Modern Warfare 3 stands as a game that really benefits from 120Hz and a VRR screen, especially on the Xbox Series S. The PS5 and Series X remain the best place to play on consoles, with the Series X just pipping the PS5 in that 120Hz screen.
