Some solitaire variations have higher odds of winning than others, with FreeCell having the highest chance and Pyramid Solitaire having the lowest. FreeCell has a win rate of around 99%, while Pyramid Solitaire ranges from 0.5-5.5%. The key to winning a solitaire game is making the right moves.

You can complete a game of Pyramid Solitaire in two ways: with a win or a loss. To win, you must match and discard every card in the pyramid, stockpile, and discard pile. However, after you have moved every card from the stock to the discarded pile three times without winning, the game is over, and you lose.
