Make sure your firewall is not blocking
the "TerrariaServer.exe" or the server's port (Tj T* BT

(especially important if it's not the default "7777"). If you are
using a router you have to make sure it opens the server's port for you.

If you want to play Ter
raria online with other users, you have two options. You can use the

Host & Play feature in the Terraria client to host your own online
game on your device. Other players can then join the world either w
ith or without a password.
