[What is NSF funding abbreviation?](#)

A NSF (National Science Foundation) is a financial institution created by the federal government of the United States that supports and encourages research, education and innovation in science and engineering in the US. In addition, NSF has a very important role in the certification of water filters, guaranteeing efficiency and effectiveness in the removal of contaminants.

Since 1944, NSF has acted in support of innovative research in 500 different areas of knowledge, contributing significantly to the academic and technological progress of the US in 500 different regions of knowledge, including the main branches of engineering.

NSF's Water Filtration Certification is a standard for the selection of water filters, guaranteeing a high degree of fidelity and quality in the filtration process of water. This makes water safer for consumption and use, especially for vulnerable groups such as newborns and the elderly.
