<p></p><p>Football corners predictions is one of the fairly ne
w tips offered by tipsters and by us. Some say it's luck 😗 predicti
ng corners in a football game, but we at AFootballReport find in corners very pr
ofitable markets especially in live events 😗 when odds go very high as
the game evolves.So how do we predict corners? Of course as any other football &
#128535; prediction and corners are related to a number of pre-match and team f
actors. First of all we should see the 😗 type of game we're looking
for or the type of game we want to predict. Is it a game with 😗 a stro
ng favorite or just two equally strengthen teams that play. If it's a game w
ith a strong favorite probably 😗 we should pay attention to the corners
race predictions as strong favorites always keep the ball in possession more th
an 😗 the other teams and create more chances as they push forward almos
t during the whole game. Keep in mind in 😗 live events that if the scor
e is in favor of the favorite team then this team would not be so 😗 mot
ivated to create chances and would probably win less corners than in a draw even
t or from behind.</p>
<p>Second thing we 😗 should use when making our corners tips is t
o see the teams lineups and tactic for the upcoming game. Target 😗 tea
ms with more offensive tactics and teams that use wingers heavily in their attac
ks. For example, some good wingers for 😗 the home team could easily pro
duce more than 10-20 crosses in the penalty area which very often defenders clea
r in 😗 corners.</p>
<p>Corners in the late stage of the game are more likely to happen than in
the early minutes. Usually teams 😗 are very careful in the opening min
utes of a football game and they try to enter the game more passively 😗
than aggressively. As the game continues depending on whether a team is losing
or winning the game is leading to 😗 pushing forward and sending more pl
ayers to attack or defend. This leads to significantly increasing the number of
corners in 😗 the last minutes and that is what we want when predicting
