The odds are designed to encourage betting &#127881; on both sides of an event, ensuring that the bookie will make a profit regardless of the outcome. They do &#127881; this by adjusting the payout odds to favor the less likely outcome, thus ensuring a profit even if the majority &#127881; of bets are placed on the more likely outcome.&lt;/p>&lt;p>Bookies also collect a commission, known as the "vig" or "tjuice," on &#127881; losing bets. This commission is typically around 10 % of the total amount wagered. By collecting this fee on all losing &#127881; bets, bookies are able to generate revenue even if they pay out a significant amount of money to winning bettors.&lt;/p>&lt;p>Finally, &#127881; bookies may limit the amount of money paid out to winning bettors. This is done to manage risk and ensure &#127881; that the bookie remains profitable. By limiting the payout to winning bettors, bookies are able to protect themselves from large &#127881; losses in the event of a significant upset or unexpected outcome.&lt;/p>&lt;p>In summary, bookies make money through a combination of setting &#127881; odds, collecting commissions, and limiting payouts to winning bettors. These
