[0 0 bet365](#)

Generally, Telegram bots are safe to use. However, it is essential to be cautious while interacting with bots, especially if they request personal information or access to your account. Stick to reputable bots with positive reviews, and avoid sharing sensitive information with unknown or untrusted bots.

Cybercriminals use Telegram to sell phishing kits that can be used to launch coordinated campaigns against businesses. These phishing kits enable cybercriminals to harvest login credentials and other sensitive information from unsuspecting victims.
