Dino é um aplicativo de navegação da web que vem pré-instalado no Chrome. Para abrir o Dino no Chrome, siga os passos abaixo:

1. Abra o Chrome;

2. Clique no ícone de aplicativos (três pontos) no canto superior direito;

3. Clique em "Mais" (ou "Mais aplicativos") no topo da lista de aplicativos;

4. Clique no ícone do aplicativo "Dino" na lista de aplicativos.

Dino agora está disponível para você.

Para saber mais sobre o Dino, visite <https://www.google.com/dino/>.

Se você não consegue ver o Dino, tente:

1. Verificar se o navegador está atualizado.

2. Verificar se o JavaScript está ativado.

3. Verificar se o sistema operacional está atualizado.

4. Verificar se o navegador está em modo de desenvolvedor.

5. Verificar se o navegador está em modo de desenvolvedor e se o ícone do aplicativo está visível.

Quando o ícone do aplicativo "Dino" estiver visível, clique nele para abrir o jogo.

The gambler's fallacy is the mistaken belief that past events can influence future events that are entirely independent of them in reality. For example, the gambler's fallacy might cause some one to believe that if a coin just landed on heads twice in a row, then it's due to land on tails on the next toss.
