[Call of Duty: Warzone System Requirements](#)
Minimum Recommended CPU Intel Core i3-4340 or AMD FX-6300 Intel Core i5-2500K or AMD Ryzen R5 1600X RAM 8GB 12GB HDD 175GB HD space 175GB HD space
Modern Warfare is typically the free version which has a huge map. I wouldn't worry about it personally. That game is a resource hog and RAM usage probably goes up and down quite often. I still use 16g and have no problems running it
