The rules of soccer are the same as for football, but with one important caveat: The

matches last 90 minutes, plus an 8-minute break at halftime.

Shooting stars occur all the time,

even during the day, but the best time to see one is at night.

The colors of a shooting star may also indicate the minerals that make up the space rock. Different elements emit different-colored light when they burn.

There are usually around two shooting stars per hour, but the best time to see them is during a meteor shower. This is because there will be many more than usual all over the sky.

Shooting stars do occur in the daytime, but can be seen more clearly in the sky at night.
